Our Women Build events provide the opportunity for women to take a proactive step in serving their communities...

Women Build opportunities are available across the U.S. and we are having our first Women Build Week at Habitat for Humanity of Kenosha! No experience is necessary. Volunteers work under the guidance of construction professionals, and also alongside other volunteers and future Habitat homeowners. Whether you are learning new skills or simply adding a few to your tool belt, this is a rewarding experience for all involved, and improves the community that you share.

Women Build is also a terrific way to involve your friends and family of all ages in crucial work with a lasting impact. Women helping women sends a positive and powerful message. You can also come alone and make new friends. The atmosphere is collaborative and friendly.
